

Lingraphica® for Aphasia.

The **Lingraphica** is the speech-generating device for adults with aphasia, the loss of speech due to stroke or brain injury. It provides a large vocabulary of icons that speak in a natural human voice. Easy to use, with the flexibility to serve a wide range of users, the Lingraphica helps persons with aphasia get back to expressing themselves.

Functional Communication and Therapy Combined

Immediate “out of the box” use provides functional communication. Therapy exercises, and unlimited practice opportunities, help with the recovery of natural speech.

Free Trial

SLP-supervised two-week trial with a free loaner to determine if the **Lingraphica** is appropriate for the patient.

Training, Support, and Guidance

Customized program of care and unlimited free support provided by a dedicated Lingraphica trainer.

Reimbursement

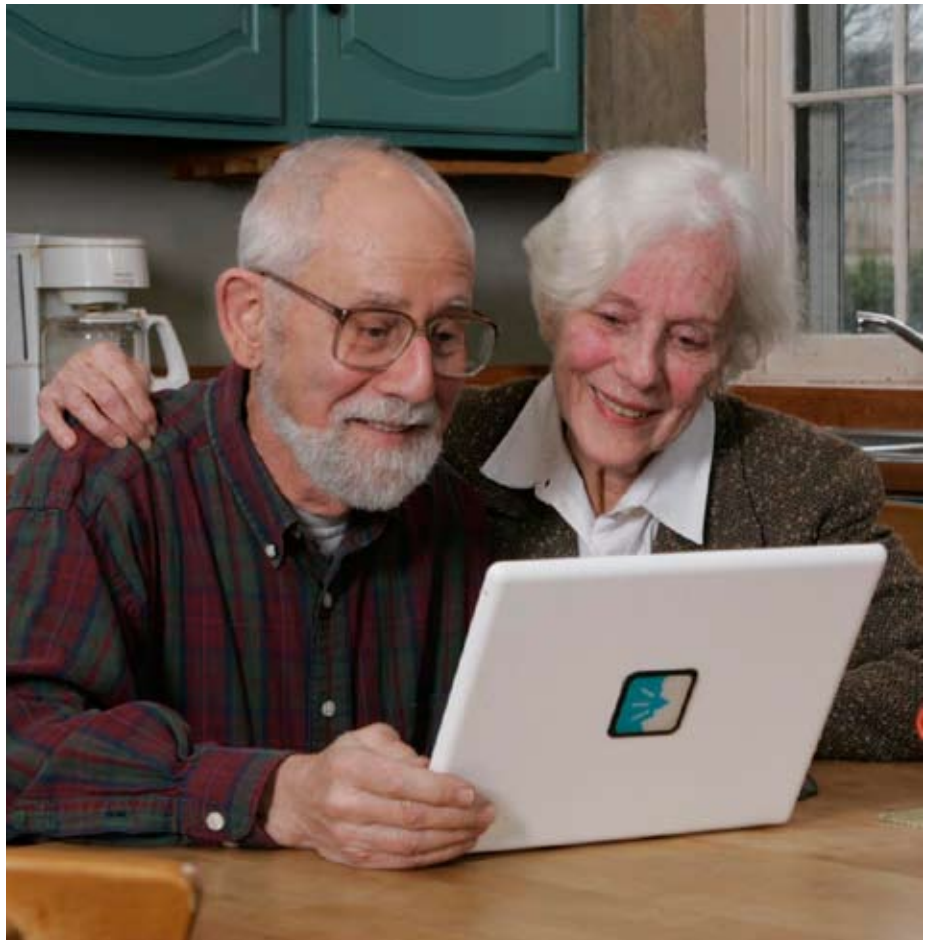

Coverage by Medicare, most state Medicaid, and most private insurers.

Research and Efficacy

Proven effectiveness in clinical trials with over 1000 patients.

VA Contract

Approved by the Veterans Administration for veterans with aphasia.

Lingraphica®

www.aphasia.com

Communication and therapy for life.

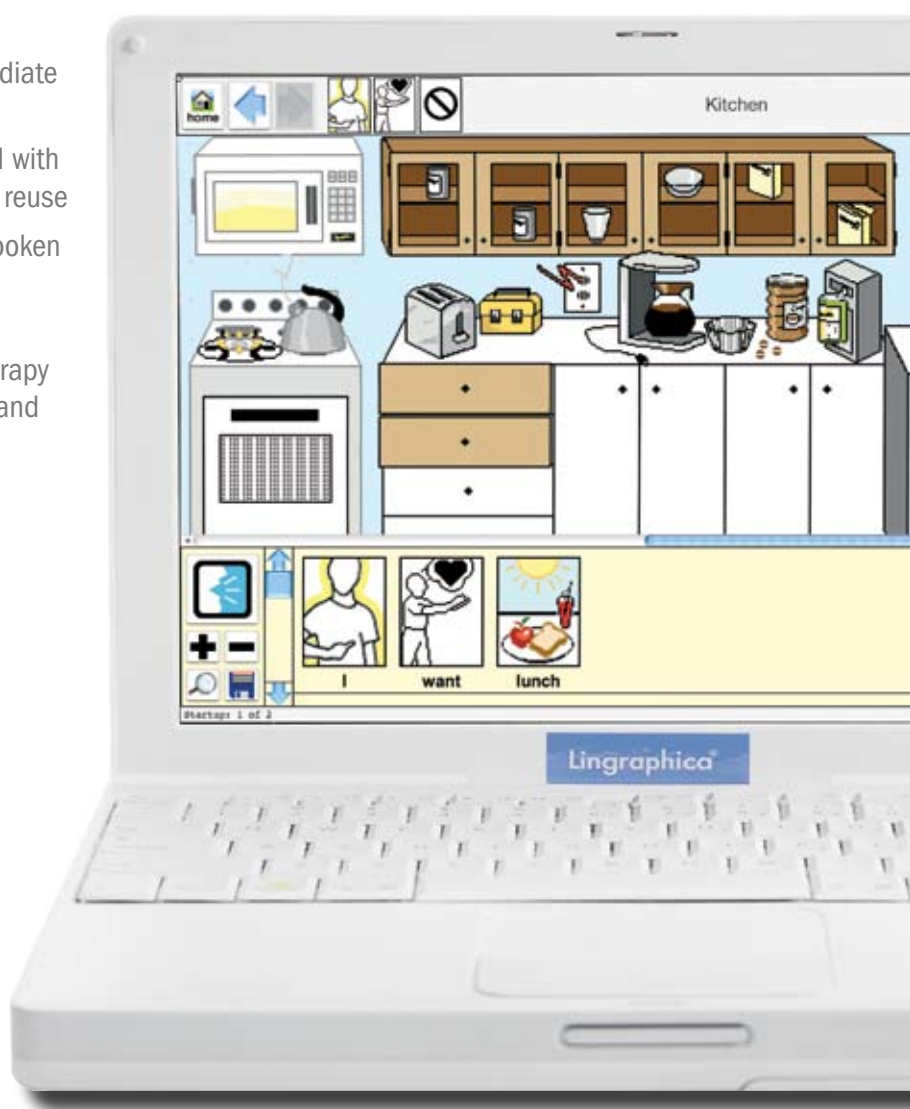

The **Lingraphica**® speech-generating device is designed to be used in two ways. First, it provides immediate, functional communication for use in everyday situations. Second, it offers long-term improvement of natural language skills through unlimited practice.

Functional Communication

- Pre-loaded communication phrases, ready for immediate use in settings like a doctor's office or a restaurant
- Personalized communication phrases, easily created with a user's own information and easily saved for future reuse
- Easy, single-click operation for accessing phrases spoken in a natural human voice

Therapy

- Unlimited speech practice, both at home and in therapy sessions, through rehearsal and repetition of icons and phrases
- Over 240 prepared standard therapy exercises at Easy, Medium, and Hard levels

Lingraphica® *Express2*: features and benefits.

The *Express2* — the latest version of the **Lingraphica** — is the easiest and most flexible yet. Intuitive and fun, it's simple for users to make the device their own.

Flexible Settings

- Pre-set user levels
- Resizable icons for easy-to-see pages
- Movable icons for personalized screens

Personalization

- Add your own new words
- Create personal pages using custom phrases and favorite icons
- Add photos of family, friends, special places, pets...anything.

Easy to Use

- User-friendly interface—no programming required
- All operations done with a single click

Quick Communication

- Hundreds of pre-made phrases, sentences, pages, and exercises
- New sentences created easily
- All phrases accessed easily for quick speech.

Video Help

- "Video Help" installed on the device for instant, easy-to-follow, video instructions

SLP clinical guidance, training and support.

Our free training program makes it easy to learn the **Lingraphica®** and use it with a patient. Our trainers work with the SLP in the field, adapting our structured program to each patient's unique needs, and providing the SLP and patient with unlimited support.

Free Trial

We provide a **Lingraphica** free of charge for a two-week trial to determine if it is right for the patient.

Screening

We provide evaluation materials to determine the patient's level of function and personal communication needs.

Customization

Based on the patient evaluation, we help the SLP set up the **Lingraphica** at the appropriate level for a patient and customize it with their personal information, such as family names and favorite foods.

Goal Planning

A Lingraphica trainer works with the SLP to create a treatment plan and a list of short-term goals for the patient. We make suggestions from our selection of over 240 practice exercises.

Unlimited Support

Lingraphica trainers provide unlimited support, free of charge, to SLPs and patients.

Reimbursement Support

We verify insurance coverage before the trial begins, and secure benefits when it ends. We provide help with the paperwork to make the process easy.

Easy CEUs

SLPs may obtain 2.4 CEUs from ASHA after completing a Lingraphica trial.
