

# MIGHTYmo™ miniMo™

**Digitally powered to allow  
you to confidently and quickly  
speak your mind.**

## Crisp, Clear Communication

Augmented communicators of all physical and cognitive abilities who prefer or require digitized speech can create messages of any length or complexity. The ability to record more than 100 minutes of speech and sound recordings – in addition to those provided with your MightyMo or MiniMo at time of purchase – ensures ample room for needed vocabulary.

## Easy to Use and Setup

Prerecorded page sets provide professionally recorded vocabulary that can be used by children as a starting point for normal daily activities. Creating customized pages with greater meaning for the augmented communicator is easy with MightyMo and MiniMo. Import pictures and sounds to create enhanced visual representations.

## Peace of Mind

Developed specifically for augmented communicators, MightyMo and MiniMo can absorb the impact of daily living. You can rest easy knowing that DynaCare® covers your MightyMo or MiniMo for one full year from the date we ship the product to you.

## Time for the Important Things

By combining the natural message formation strategies for augmented communicators with tools and resources for care teams that reduce the amount of time needed to learn and program the devices, MightyMo and MiniMo allow for greater time spent making meaningful connections with one another and the world.

## SPECIAL FEATURES

### Professionally Recorded Page Sets

Choose from an adult male voice, an adult female voice or a gender-neutral child's voice.

- Preschool Pages
- Virtual Pages
- Adult Pages
- Behavior Modification Pages
- Medical Pages
- Gateway Jumpstart™

### Onboard Universal Remote Control

- Control common household appliances such as TVs, DVD and CD players, and IR phones, etc. with your MightyMo or MiniMo.

### A menu structure and software interface similar to that of the DyaVox DV4 and MT4

- Makes the transition from MightyMo or MiniMo to the more fully featured Series 4 products easy for everyone.

Integrated microphone and auto-leveling help to ensure that messages are recorded and delivered with a high degree of clarity.

Backup to and restore data from your Windows® PC using USB storage device (included with your purchase).

Technology for human expression.
