Products: Communication Systems

TuffTalker Convertible™

Get the **best** of both worlds in one **extraordinary** system!

This extraordinary new AAC communication system from Words+ gives you the option of quickly changing from laptop computer to touchscreen tablet and back again with the touch of a button and a twist of the wrist.

Fully loaded with Words+ EZ Keys, Say-it! SAM or Mind Express communication software, and Microsoft Windows XP, this system is ready to help you start communicating right out of the box! Our Micro Commpac adds extraordinarily loud, crystal clear sound so you can be heard even in the noisiest environments. The system also has built-in wireless capability, giving you freedom of movement, and more than 6 hours battery life gets you through the day without a recharge. A convenient hot-swap battery feature extends your productivity in just seconds.

Words+ is an Authorized Panasonic ToughBook Partner

At under 6 pounds, the system is light enough to take with you wherever you go, and for your convenience, we've added an external CD-RW drive. Surf the internet, communicate with family and friends with a loud, clear voice, and e-mail someone around the block or around the world.
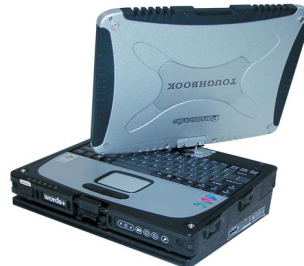

A speedy 900MHx Intel® Centrino, 256 MB of RAM (expandable to 768 MB), a big 40GB shock-mounted hard drive and a 10.4" active matrix touchscreen display round out the specs on this exciting new communication system from Words+.

Our Guarantee
We offer a three-year limited warranty on parts and labor for your communication system. We also provide free technical support Monday through Friday, 6a.m. to 5p.m. (PST), and 24-hour emergency technical support. And with our EZ keys software, you'll receive free technical support and free software updates from Words+!
