ACES High-Tech Evaluation Toolkit

We have made it easy!

- Communication software installed from at least 5 different AAC manufacturers
- Emulate a variety of types and size of devices – small to large
- Premade activities / ideas with overlays built in
- Evaluate from the simplest to the most complex communication needs
- Multiple access methods available including a touchscreen convertible notebook
- And much more!

Plus: Summary forms for the following to aid in decision-making:

- List of communication software options
- Individual's skills
- Device features
- Templates for doing the assessment and writing reports
- And much more!

Plus: Online training (offered at no charge)

The ACES High-Tech Evaluation Toolkit is your answer – and all for only \$2995!

Includes Starter instructions for all communication software

Variety of manufacturers software samples installed for your use:

- Tobii Communicator – full featured version
- Series 5 - (DynaVox)renewable full featured version
- Saltillo – full featured version
- PASS software (Prentke Romich) – variety of demo samples
- SayIt! Sam & EZ Keys (Words+) – variety of demo samples

(And more as they become available!)

Tobii Communicator software includes evaluation board to assist in evaluating use of symbols, formulating messages, using device functions, and much more!
